R150-0000526	1533	\$803.00	2240061	DATE: 18.11.2022 Document Number 523931 R1 BREAKDOWN FOR VEHICLE DERATING TRUCK DERATED - FAULTY FUEL PUMP ACTUATOR Organised tools and parts at workshop, drove out to Balmattum rest area north bound, plugged into truck and found to have high fuel pressure codes and fuel pump actuator codes, follow trouble shooting, put bonnet over and check resistance on fuel pump actuator, the actuator would read from 3-220 ohms of resistance and occasionally show an open loom, the actuator can't have more than 5 ohms of resistance so found the actuator was faulty, we didn't have one so there wasn't much I could do, talked to someone from Lindsay's workshop and told them what i had found, left it to them to organize a changeover truck or tow.
