			Have truck in shed and pulling transmission out for clutch	
			issues have removed box, clutch, and flywheel to inspect.	
			Replaced rear main, machined flywheel, replace the clutch	
			and cross shaft bushes and fork. Refitted gearbox and tail	
			shaft and PTO. Adjusted clutch and refilled oil and washed	
			and R/T ok. Found coolant leak around water pump housing	
			rear seal and rad hoses oily so think trans cooler in	
			radiator starting to leak. Has list of stuff it will have	
			to come back for so added this to the list and told them	
			needs to come back.
